# THE ACTUAL FOUNDATION of the BUSINESS WORLD

NINE-TENTHS of the business of the world is done by checks. Why not do yours that way?

Your money is safer in a good bank than anywhere else. It is at your call at any time and you can pay it out simply by writing your check, a cleaner way than handling the actual bills and silver. Then, too, the check is a good receipt for payment, for, of course, the payee can't get the money—your money—from the bank, until he receipts for it.

We accept small accounts and are glad to get them

## Summer Cooking Shouldn't Cook the Cook

Getting dinner ready in July is just as comfortable as in November—if you use a FLORENCE OIL COOK STOVE.

"The Turning Point in Oil Stove History"

## FLORENCE Oil Cook Stoves

"Look for the Lever"

The heat goes into the cooking, not into the kitchen. It does your work well and reliably, and keeps you comfortable. It requires less watching and regulating than a coal stove.

You can keep one or more burners at an intensely hot or merely simmering flame.

Come in and let us show you how these Florence Automatic Stoves work, how simple and reliable. No Wicks to burn out. No Valves to leak. Once started, each burner will keep going at the same power until you turn it out.

### PERFECTLY SAFE

### DO YOU WANT A REAL OIL STOVE

Come and see the oil stove that is as far ahead of the wick oil stove as electric lights are of oil lamps. No wicks to burn out. Heat generated from oil and air. Absolutely safe, no heating the room, all confined to the stove. A stove that is guaranteed by the people that make it and the people that sell it.

Just think with one of these stoves you have no wet wood, no wood to cut, no wood to carry in and ashes to carry out, and you haven't got to wait a half hour to heat up your stove. Come let me show you.

I would also like to show you the best Fireless Cooker that brains has been able to produce. "The Ideal," time, labor and worry saver. Come and go through with me. If you do not want to buy there will be no harm done. Make your next trip to Mackorell's to see the Florence Oil Stove and the Ideal Fireless Cooker.

Yours truly

J. B. MACKORELL
